

Summary

Full Stack Developer with strong expertise in designing, developing, and maintaining scalable web applications using **Next.js, React, Node.js, and TypeScript**. Experienced throughout the software development lifecycle, building responsive user interfaces, developing secure backend APIs, and delivering high-performance, maintainable solutions.

Core Competencies

- Full Stack Development
 - Authentication & Authorization
 - Multi-Tenant Architecture
 - SEO & Web Performance
- REST API Development
 - AI Integration
 - Performance Optimization
- SaaS Development
 - Database Design
 - Responsive Web Development

Skills

Technical Skills Frontend & CMS:	React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Sass, GSAP, Framer motion, shadcn/ui, Radix UI, Redux, Zustand, WordPress, Headless CMS, ACF (Advanced Custom Fields)
Databases & Backend Services	Node.js, Express.js, REST APIs, GraphQL, PostgreSQL, MySQL, MongoDB, Supabase, Firebase, Prisma ORM
Tools	VS Code, PyCharm, NetBeans, MS Word, Git, GitHub, Docker, Vercel, Netlify, and AI Tools like OpenAI API, Gemini API, Grok API, Claude, AI Integrations.
Personal Skills	Problem-solving, Reasoning analysis, Communication, Management

Education

Khwaja Fareed University of Engineering and Information Technology, R. Y. Khan
BS in Computer Science (2018-2022)

Professional Experience

Devbion (Full Stack Developer): (September'2023 - February'2024 & Apr'25 - Present)
Develop and maintain full-stack web applications using **React.js, Next.js, Node.js, TypeScript, Supabase, and modern web technologies**. Build reusable frontend components, develop REST APIs, integrate databases and AI services, and create custom WordPress solutions while delivering scalable, responsive, and high-performance applications.

Freelancing (Full Stack Developer): (2024 - Present)
Design, develop, and deploy full-stack web applications and custom websites using **modern web technologies**. Collaborate with clients to deliver scalable, responsive, and high-performance solutions tailored to their business needs.

Alethea AI (React Js Internship): (Jun'23 – Aug'23)
Assisted in developing and maintaining responsive web applications using React.js and modern frontend technologies. Built reusable UI components, collaborated with senior developers, and followed software development best practices.

Nanosoft House (Frontend Internship): (Oct'22 – Jan'23)
Assisted in developing responsive web interfaces using HTML, CSS, JavaScript, Bootstrap, and React.js while collaborating with senior developers and gaining hands-on experience in modern frontend development.

Projects (More on my [Portfolio](#)):

Devbion Web App: Developed a **headless CMS** web application using **Next.js, WordPress, GraphQL, and TypeScript**. Built reusable and scalable frontend components, integrated dynamic content from WordPress via GraphQL, and optimized performance to achieve **90+ Lighthouse scores** across key metrics, improving speed, SEO, and user experience.

TrueBlue Traffic: Developed a responsive WordPress site at Devbion from a Figma design using Elementor, with custom animations, ACF-powered content management, and a mobile-first UX focus.

SyncReviews: Developed and maintained a scalable **SaaS reputation management platform** using **React.js, TypeScript, Supabase, and AI integrations**. Implemented 15+ major features including **AI-powered content generation, social media post scheduling, AI chatbot, referral system, competitor tracking, employee management, QR-based review collection, review aggregation from Google, Facebook, and Trustpilot, analytics dashboards, embeddable widgets, project progress tracking, and data export tools..**

Knots of Love: Developed a full-stack **e-commerce platform** for a handmade crochet business using **Next.js, TypeScript, Tailwind CSS, Supabase, and PostgreSQL**. Implemented secure authentication, admin product management, image galleries, shopping cart and checkout functionality, automated order email notifications for customers and administrators, and a fully responsive user experience optimized for mobile devices.

Manazil Al-Haramain - Travel Agency CRM & Marketplace: Designed and developed a scalable **multi-tenant SaaS platform** using **Next.js, React, Node.js, TypeScript, Supabase, and PostgreSQL**. Built role-based dashboards, marketplace listings, booking lifecycle, payment tracking, invoicing, AI-powered chatbot and OCR, analytics, multilingual (RTL) support, and secure multi-tenant architecture using **RBAC and Row-Level Security**.

EmbedMyBot: Developed a multi-tenant **AI chatbot SaaS platform** using **Next.js, React, TypeScript, and Supabase**. Built a **RAG-powered knowledge retrieval system** with LLMs (Gemini, DeepSeek), document ingestion, website crawling, and embeddable chatbot widgets. Implemented **Stripe subscription billing**, analytics dashboards, lead management, and SEO optimization to deliver a scalable, production-ready SaaS solution.

Bevy Express: Contributed to the development and maintenance of a **Next.js-based grocery e-commerce platform**, implementing UI enhancements and improving application performance. Supported real-time inventory updates and responsive user experiences to ensure a stable and scalable application.

Vireloop: Built a scalable **AI SEO automation platform** using **Next.js, TypeScript, PostgreSQL, and Supabase**. Implemented **LLM-powered content generation (Claude/Gemini)**, automated publishing to **WordPress, WordPress.com, Next.js sites, GitHub static blogs, and REST APIs**, with **Google Search Console, Google Analytics** integrations and secure **Row-Level Security** for multi-tenant architecture.

Tapsayve: Contributed to the development and enhancement of a cross-platform **AI-powered expense tracking application** using **Flutter, Next.js, TypeScript, and Supabase**. Implemented payment integrations, analytics features, and mobile UI improvements while enhancing application performance, usability, and overall user experience.

Strengths & achievements

- Strong problem-solving and analytical skills with the ability to deliver scalable software solutions.
- Quick learner with the ability to adapt to new technologies, frameworks, and development practices.
- Effective communication and collaboration skills, with experience working directly with clients and cross-functional teams.
- Experienced in managing client requirements, translating business needs into technical solutions, and ensuring timely project delivery.
- Passionate about continuous learning and staying up to date with modern web and AI technologies.
- Actively participated in NGO initiatives and community events, demonstrating leadership, teamwork, and social responsibility.
